PROFESSIONAL SUMMARY

Data and risk analytics professional with hands-on experience in Excel, Power BI, Python, SQL, and Gen-AI tools (ChatGPT, Microsoft Copilot), gained through operational risk and quality management at Amazon and independent analytics projects. Skilled in root cause analysis, trend analysis, and identifying data patterns across large, complex datasets. Experienced in building executive-ready dashboards that translate risk data into clear, actionable insights, with a track record of driving process improvement and data quality.

KEY SKILLS

- Analytics & Reporting Tools: Power BI, Microsoft Excel (Pivot Tables, VLOOKUP/XLOOKUP), SQL (MySQL), Python (Pandas, NumPy)
- Gen-AI Tools: ChatGPT, Microsoft Copilot — used regularly to support analysis, drafting, and productivity
- Risk & Data Analysis: Root cause analysis, trend analysis, discrepancy and exception investigation, data pattern and thematic identification
- Dashboards & Executive Reporting: Building interactive, self-service dashboards and reports that translate complex data into clear, decision-ready insights
- Data Quality & Process Improvement: Identifying data quality issues, reporting gaps, and improvement opportunities
- Communication & Storytelling: Clear written and verbal communication for structured stakeholder reporting

PROFESSIONAL EXPERIENCE

Catalog Specialist | Amazon

Aug 2026 – Present

- Drive in-depth analysis of operational data to identify discrepancies, emerging patterns, and areas requiring management attention, supporting risk mitigation and process compliance
- Conduct root cause investigation on data exceptions and operational issues, translating findings into accurate resolution and reporting
- Maintain data quality and accuracy on large volumes of structured information under a zero-error, process-compliant framework
- Use internal tools and systems to review, verify, and update information as part of structured governance processes

Patent Researcher Trainee | Expertlancing Research Services LLP

Feb 2026 – Jul 2026

- Conducted structured analysis of technical and patent data from multiple sources, identifying trends, relationships, and relevant patterns
- Prepared structured analytical reports and research documentation, translating findings into clear conclusions to support decision-making
- Maintained accuracy and consistency by adhering to defined research standards and documentation protocols throughout the review process

PROJECTS

Last-Mile Delivery Performance Analysis | SQL | Python | Pandas | Power BI

- Analyzed operational data to evaluate performance, delays, and regional trends; built an interactive Power BI dashboard to track KPIs and surface risk areas for stakeholders

E-Commerce Sales & Customer Analytics Dashboard | SQL | Excel | Power BI

- Used SQL and Excel to clean and analyze transactional data; built dashboards translating complex data into executive-ready insights

EDUCATION

Ajay Kumar Garg Engineering College

2022 – 2026

Bachelor of Technology – Electronics and Communication Engineering (CGPA 7.2)

Ghaziabad, UP

Commercial Sr. Sec. School

2021 – 2022

Intermediate (PCM) – 85.3%

Daryaganj, New Delhi

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Worked as a team member at Slum Swaraj Foundation, teaching underprivileged students and organizing educational support and community awareness initiatives
